

KONICA MINOLTA

The AU-204H is a Magnetic Stripe card reader which connects directly to the USB port on the MFP and works with the machine's internal authentication capabilities or with the Konica Minolta exclusive bEST certified authentication solutions. The user simply walks up to an MFP and swipes their card to gain access to the MFP to complete copy, scan and fax functions.

Secure printing has never been easier using the AU-204H and "ID and Print" feature. A user sends a print job to the MFP where it is held until the user is in front of the MFP. To release their job, the user simply swipes their card to release only their documents without any other interaction. For the Konica Minolta bEST solutions simply swipe your card to gain access to the MFP as well as all other features including Follow You Printing.

The AU-204H is designed to read any magnetic stripe card, regardless of which way the magnetic stripe is facing when swiped.

a card reader **solution** that ensures security.

MAGTEK[®]
SECURITY FROM THE INSIDE

magnetic stripe reader
